

RX WHEEL RIM BRUSH

DESCRIPTION

RX WHEEL RIM BRUSH effortlessly restore your wheels to their original shine . Versatile and durable tool delivers superior cleaning power for all types of wheels, including alloy, chrome, steel and painted finishes. Designed with soft bristles to reach a streak free finish and avoid any kind of scratches.

PROPERTIES

- **Perfect for clean** between wheel spokes, around rim edges and radiator vents.
- **Powerfully cleans stubborn buildup**, including grease, oil, caked-on brake dust, and road grime.
- **Ergonomic, slip-resistant rubber handle** provides a firm and comfortable grip, even when your hands are wet.
- **Strong, flexible bristles** that hold their shape. and don't snap, making tough dirt removal easier.

DIRECTIONS

Rinse the wheels with a hose or pressure washer to remove loose dirt and grime. Dip the wheel brush in water to ensure it's lubricated.

Apply the Rain-X Graphene Wheel Cleaner & Protectant and use the brush to clean between spokes and along the edge of the rim. Repeat the process for all wheels . Once finishes, rinse the brush with war water.
